CORD SETS

Furrion cord sets are the perfect balance of strength, durability and flexibility. Constructed to withstand harsh pull tests and flexible enough to coil and store with ease, Powersmart™ and Faultsmart™ technologies provide valuable safety information.

Powersmart™
Voltage indicator

Faultsmart™
Reverse Polarity and
Neutral Loss Indicator

BLUE POWERSMART LED

Provides instant indication that power is present, dual Powersmart LEDs indicate power is present on each leg. In blackout situations, the LEDs indicate whether a fault has occurred at the power source or at your equipment.

RED FAULTSMART LED*

Indicates incorrect flow of electricity due to incorrect wiring. Provides instant warning and reduces the risk of hazard or damage to electrical equipment.

**50A, 125V Cords*

99.9% pure annealed copper with thick copper strands provide maximum conductivity and durability. Super-flex, oil resistant PVC is easy to clean and adds flexibility for easy coiling.

SMART CORD SETS

SMART CORD SETS FEATURE:

- Super-flex, oil-resistant conduit that is easy to clean and flexible for easy coiling
- Ergonomic, molded side grips provide easy, user-friendly connections
- All cords meet global marine industry standards, Marine UL, cUL, ETL Intertek Certified
- 5-year, quality assured warranty

30 AMP, 125V CORD SETS

With Powersmart™ Technology

The Powersmart™ bright blue LED voltage indicator displays real time information that there is power to the cord set. Engineered and tested to withstand harsh environments, Furrion cord sets are ETL Intertek Certified, meet Marine UL and other global marine industry standards. Cord sets are available in two colors, titanium grey and yellow.

YELLOW CORD SET

Features:

- Constructed for durability, strength and longevity in the marine environment, flexible for easy coiling and storage
- Ergonomic, molded side grips for easy connection
- 12-foot cord sets include storage bag
- Universal fit with other brands (NEMA)

CORD SET ACCESSORIES

CORD ORGANIZER BAG

Furriion's shore-power organizer bag is the ideal place to store your cord sets and shore-power devices to keep them dry, clean and accessible. Constructed with heavy-duty materials, it provides weather-resistant protection.

Features:

- Cable entry and exit holes at each end of the bag for easy access
- Ventilation for drying moisture
- Heavy-duty, water-resistant material to help prevent damage and provide added security and strength
- Reflective edges that make the bag visible in dark locations

FORGBG-SS
(382395)

FRAMP-SS
(381634)

PORTABLE CABLE RAMP

Furriion's portable cable ramp has amazing industrial strength, is lightweight and packs into a small bag for easy storage and portability. With its adjustable sizes and the ability to join several ramps together, it provides protection for a wide variety of applications. The portable ramp has also been designed for permanent mounting when needed.

Features:

- Adjustable widths for different sizes
- Compact storage bag included for easy storage
- Reflecting surface symbols for night visibility
- Rubber feet for added traction and ramp stability
- Length of ramp is 22" *(Join ramps together for additional lengths)*
- Cable channel width is adjustable from 2" to 3.75"

POWER INLETS

Modern, sleek design meets exceptional features and functionality. Engineered for safety, Furrion power inlets are constructed for durability and longevity in the harsh marine environment. These stylish inlets feature a voltage indicating bright, blue Powersmart™ LED to show a live connection.

**Stainless steel inlet does not include LED*

Snap lock rear cover for easy installation

Powersmart 3-LED bright blue power Indicator

Threaded strain relief makes installation faster and easier while pulling the cable towards the terminals to ensure a safer and secure connection

Powersmart™
Voltage indicator

Innovative terminal design provides 50% more screw thread. Secure cable with more torque and reduce cross threading during installation

Transparent pin face provides the user with quick indication that the cable is secured to the terminal and provides visible warning for overheating connection or internal damage

The new innovative inlet design improves safety and diminishes installation errors. The unique terminal design reduces operating temperature by up to 10° F.

30 AMP POWER INLETS

With Powersmart™ Technology

Engineered for safety and longevity, the feature-rich Furrion inlets are an ideal solution for a wide range of boats. Constructed with marine grade materials to withstand harsh environments, Furrion inlets feature NEMA universal fit, are ETL Intertek Certified, and meet other global industry standards including Marine UL , CE and ABYC. Powersmart™

technology informs the boater of normal and abnormal conditions. Designed for style with clean lines, luxurious, strong materials, and functionality that simplifies installation and ease of use. Available in white, grey, stainless, square or round to meet your aesthetic needs. Furrion inlets power living luxury onboard.

PIGTAIL ADAPTERS

With Powersmart™ LED Technology

Marine pigtail adapters are used to convert plug sizes. Furrion pigtail adapters are made to stringent quality standards, constructed with high-grade, corrosion resistant materials for longevity in the harsh marine environment. Designed for safety, Powersmart™ or Faultsmart™ indicators provide valuable, real-time information. Plug-ends feature ergonomic side grips for easy, user-friendly connection. Furrion adapters meet global industry standards, NEMA universal fit with other brands, cables are rated up to 600V, 105°C, and a bonus sealing collar is included with all pigtail adapters except for FP1530SY. Furrion stands behind its shore-power products with a 5-year warranty. 50A adapters include heavy-duty storage bag.

ANTI-INTERFERENCE TV CABLES

With Signalsmart™ Anti-interference Filter

When run over long lengths, telephone and TV cables in marinas act as antennas, picking up unwanted radio signals that cause interference. Furrion's anti-interference filters are installed inline and help reduce static and interference to improve your connection quality.

Features:

- Bonus weatherproof bag for storage and protection
- Marine grade coax cable, vinyl insulated for weatherproofing with slip on 'F' type male connections with protective cover
- Universal fit with other brands

ENTERTAINMENT ON THE MOVE

AC TVs

DC TVs

TV
ACCESSORIES

DESIGNED TO ENTERTAIN, BUILT TO MOVE

Furrion's world-class televisions provide optimal performance while withstanding the vibration felt on the open water and exposure to extreme temperatures. Features of the ultra-slim LED televisions include: full 1080P high definition viewing, a beautiful A+ vivid panel, efficient LED technology for added brightness, enhanced audio amplifiers and speakers, Dolby Digital® sound, and a wide range of connectivity options for your console or DVD needs. Combining advanced Vibrationsmart™ and Climatesmart™ technology, durable construction, connectivity and style, the LED HD TVs from Furrion offer state-of-the-art entertainment onboard.

DESIGNED AND TESTED FOR ONBOARD APPLICATIONS

1. METAL PLATING FOR EXTRA DURABILITY

The unique design provides a strong and durable housing for electronic and wall mounting components

2. METAL WALL MOUNT BRACKETS

The heavy-duty wall mount brackets are fixed directly to the metal framing. This balances the vibration force between the metal components and reduces pressure in areas prone to damage

3. VIBRATION RESISTANT CIRCUIT BOARDS

Silicone glue is used to protect the circuit board components from stress caused by vibration. The same process is used in mobile phone technology for shock absorption

4. ENERGY EFFICIENT HIGH BRIGHTNESS

Combining LED technology with energy efficiency to allow for crisp, clear viewing with minimal power consumption

5. BEAUTIFULLY VIVID A+ PANEL

Providing the highest quality viewing experience with error-free resolution

Furrion's audiovisual electronics including HD LED televisions feature advanced technology, deliver world-class performance, picture and sound quality, and enhance your onboard entertainment experience.

6. UPGRADED FURRION AMPLIFIER AND SPEAKERS

Providing high-quality audio for an optimized cinematic experience

7. HDMI 1.4

HDMI 1.4 features the latest digital advances to connect your high definition video devices: Full HD 1080P+ high definition video, ultra-high speed digital and audio cable with high purity copper conductors and durable gold-plated connectors for maximum signal transfer

8. AUDIO OUT

With audio out, plug your headphones or speakers directly into the TV's port to amplify or direct your TV's audio

9. SIDE OR BOTTOM ACCESS CONTROLS

Easily control your TV's functions from the main console

GALLEY INNOVATIONS

INDUCTION
COOKTOPS

DISHWASHERS

MICROWAVES

LIVING LUXURY ONBOARD

Equipped with Vibrationsmart™ and Climatesmart™ technologies, the galley appliances are engineered and constructed to withstand vibration and extreme temperatures. Designed for performance in the marine environment, power draw and water usage are kept to a minimum. Furrion has developed cooking technologies to simplify and expedite the cooking process that are designed for use while in motion. Let the sleek style, functionality and performance of Furrion galley appliances inspire you to create your own dream galley. A galley that makes cooking effortless, a place where you, your family and guests can enjoy living luxury onboard.

DUAL BURNER INDUCTION COOKTOP

With the intuitive and innovative Loadsmart™ power management system, Furriion's induction cooktops balance optimal performance, safety, functionality and convenience. The magnetic induction technology directly heats cooking devices, rapidly increasing temperatures in a short time. Thus, boaters can cook with less time, less energy and more precision.

Features:

- Timer: up to 180 minutes with hold touch settings
- 11 temperature control settings
(Temperature range: 150-450°F)
- LED temperature display
- 13 Amp maximum draw, power sharing
- Automatic safety shutdown
- Sleek and smooth surface for easy clean-up
- Childproof lock
- Stay In Place Pan Holders available to keep pans stable while cooking #424830 (Sold separately)

Loadsmart Dual Burners

CONSTRUCTION

Lippert furniture and seating is manufactured in the U.S. A vertically integrated company, Lippert facilities have the ability to rotationally mold plastics, custom upholster with Gerber,

CNC and custom quilting machinery on site. Advanced manufacturing and assembly techniques ensure high quality products and timely delivery.

How we construct our products:

- Polyethylene or e-coated steel frames for longevity, durability in the marine environment
- Premium quality vinyl that is UV and mildew resistant
- Virgin, mildew-resistant, polyurethane foam with protective plastic film
- Aluminum hinges with stainless steel pins and external fasteners made of corrosion-resistant zinc or nickel plating
- Bonded polyester thread, UV-resistant
- High quality upholstery and Innovative quilting
- Active quality control, vertically integrated manufacturing

CUSTOM PLASTIC PARTS

Lippert's rotational molding facility has the ability to develop and create custom parts for the marine industry. With state-of-the-art machinery and processes, our team can deliver high-quality parts designed for longevity in harsh environments.

TRANSFORMATIVE FURNITURE

Lippert's transformative furniture is designed to maximize space and functionality to enhance the boating experience. Engineered for ease of movement, comfort and durability, each of Lippert's custom transformative furniture solutions solves the space equation without compromising quality, style or reliability. Offering privacy in small spaces, additional sleeping areas and more comfort, Lippert has the ability to customize transformative furniture for your boat.

A BED

REPLACEMENT PONTOON FURNITURE

CONSTRUCTED FOR COMFORT, DURABILITY & LONGEVITY

Quality workmanship and unsurpassed comfort are the foundation upon which every piece of Lippert Platinum Series Pontoon Furniture is built. Equally impressive is the high level of functionality this furniture offers.

With more than 35 years of experience building marine furniture for leading pontoon boat manufacturers, our skillful engineering, R&D and design labs have developed replacement pontoon furniture that is stylish, comfortable and constructed for durability, strength and a long life span in the harsh marine environment. With seventeen items and two monochromatic, neutral fabric options, we have the seating solutions to suit your boating needs.

Features & Benefits:

- **FRAME:**

Rotationally-molded, marine grade polyethylene frame, designed to resist warping with thicker polyethylene walls, added support and unique molding lines

- **STORAGE:**

Large dry storage area under hinged seats, livewell ready compartments, channels built into the bases assist with drainage

- **COMFORT:**

Multiple foam densities provide support and comfort. Furniture depths and heights are sized for comfort onboard

- **CORROSION RESISTANCE:**

- Aluminum seat hinges
- Stainless steel staples & mounting fasteners

- **VINYL & FOAM:**

- Premium marine grade vinyl
- Mildew, UV resistant laminated vinyl
- Bonded, polyester, color fast, UV-resistant threads
- Mildew resistant polyurethane foam
- Two dynamic monochromatic color offerings based on colors used by leading OEM builders today – dove grey & beige

MATTRESS TECHNOLOGY BY DENVER MATTRESS

A Restful Slumber Awaits You Onboard

Denver Mattress® marine mattresses offer boaters a healthy, comfortable and restful sleep experience onboard. Constructed with plant-based foams and natural materials, the flame retardant mattress range includes 5", 9" and 11" depths. The product line includes several standard marine sizes, and custom sizes are available with a minimum order of 10 units. In addition, Lippert's Denver Mattress marine collection includes mattress pads, pillows and sheets. Lightweight for easy access, Denver Mattresses may be compressed and rolled for shipping and storage, which also makes them more portable and easier to install.

Features:

- Made with luxurious and environmentally-friendly, soy-based BioFlex Foam
- Fire prevention regulations met with natural materials
- Available in a variety of sizes made to perfectly fit, customization capabilities
- Top 6 mattress brand by customer satisfaction (*Consumer Reports*)
- Made in the U.S.A.

Green Benefits

Every Denver Mattress is made using plant-based foams and other natural materials that promote a healthy and restful sleep experience and comes with a five to ten-year, non-prorated warranty.

Features:

- 99% Recycled steel coil units
- Plant-based, all natural latex foams
- Highly efficient manufacturing process, minimal waste
- Natural rayon fire barriers

Combination of foam layers (poly foam, visco/memory foam, latex, gel, etc.)

Mattresses are delivered compressed and rolled for easy installation!

Denver mattresses offer support and comfort layers to eliminate shoulder, hip and back pain as well as supporting pressure points and proper spinal alignment.

DENVER MATTRESS DISPLAYS

Display the Denver Mattress in your marine or boat dealership or retail store with our Denver display racks.

Features:

- 2 mattress models, 28" x 18"
- 2 pillows, 28" x 20"
- 4 packaged sheet sets/pillow case sets/protectors, any combination of four
- Sheet set fabric swatches, 10" x 10" samples with identification cards
- Mini mattress pads and protectors, 28" x 18" samples can be demonstrated on mini mattresses

SHEET SETS

Our sheet sets include: fitted sheet, extra-long top sheet and 2 pillow cases.

Sateen Sheet Sets:

- 100% cotton, 300 thread count
- Luxurious sateen weave
- Fits mattresses up to 14" deep
- 1 year warranty

Microfiber Sheet Sets:

- Ultra-soft brushed microfiber
- Fits mattresses up to 11" deep
- Heavy-duty elastic perimeter for stay-put fit
- 1 year warranty

Adjustable Sheet Sets:

- Ultra-soft brushed microfiber
- Adjustable drawstring fits unique mattress sizes
- Fits mattresses up to 6" deep
- 1 year warranty

MATTRESS PADS

Features:

- 100% cotton, 350 thread count cover
- Adds 2" of plush polyester down-alternative fill
- Spandex skirt fits mattresses up to 16" deep
- 5 year warranty

PILLOWS

Features:

- 100% cotton, 350 thread count cover
- Hypoallergenic polyester down-alternative fill
- Machine washable and double stitched for durability
- 2 year warranty

GLASS

Our glass fabrication facilities also produce glass for entry doors, cabinet doors, backsplashes and windshields for a variety of industries. We offer a diverse arrangement of options when it comes to custom glass printing including high-resolution color printing, popular backsplash designs and real-life images. Our specialized glass printer can create replications of marble, granite, and ceramic, which is then used to replace the time-consuming process of installing traditional backsplashes. Once applied to the glass, the ceramic inks are baked into the glass with our tempering process to create a very durable and permanent image on the glass surface.

Facilities

Lippert has two prominent glass fabrication facilities in Goshen, IN. Our glass fabrication facilities offer a variety of capabilities including glass cutting, edging, ceramic printing, fabricating holes, and tempering. Between our two glass fabrication facilities, we currently produce approximately 125,000 pieces of tempered glass with additional capacity available. The tempering process is closely monitored to ensure compliance with industry regulations. Each facility has implemented initiatives that focused on improving the work environment, creating efficiencies and manufacturing the highest quality products.

Glass Printing Capabilities:

- Machine: DipTech Digital Inkjet
- Size limits: 65" x 48"
- Print resolution: 360 DPI
- Print thickness: 10um-40um (40um no light transmission)
- Mounting options:
 - Clear drying glass adhesive (Example brand: SIKA)
 - Standoffs (requires holes drilled in glass)
- Minimum order quantity crate shipping: 20 PC

The process for new printed glass development begins with a high resolution photo image or design. Once received, prototypes are created and quotations generated for approval. Final adjustments are then made and production begins.

Furriion delivers innovative technology engineered, designed and tested to withstand unique performance levels of mobile applications, including extreme weather climates and road vibrations.

THE PREFERRED CHOICE FOR RECREATIONAL VEHICLE ENTERTAINMENT.

From the very beginning, Furrion audiovisual products have been designed to enhance your RV experience. The LED TV is no exception, developed not only for durability, but with technology that delivers world-class performance and picture quality.

DESIGNED AND TESTED FOR MOBILE APPLICATIONS.

1 Metal Plating For Extra Durability

The unique design provides a strong and durable housing for electronic and wall mounting components.

2 Metal Wall Mount Brackets

The heavy duty wall mount brackets are fixed directly to the metal framing. This balances the vibration force between the metal components and reduces pressure in areas prone to damage.

3 Vibration Resistant Circuit Boards

Silicone glue is used to protect the circuit board components from stress caused by vibration. The same process is used in mobile phone technology for shock absorption.

4 Energy efficient high brightness LED technology

5 Beautifully vivid A+ panel

6 Upgraded Furrion amplifier and speakers

7 HDMI 1.4

8 Audio out

9 Side or bottom access controls

PORTABLE SOLAR POWER
CHARGER

FSPP95SA-BL. COMPLETE SOLAR CHARGING

FSPP95SA-BL 95W PORTABLE SOLAR POWER CHARGER

Furriion's portable solar panel system is designed to provide complete solar charging for your 12 volt batteries. The folding panel is fitted with the latest polycrystalline high efficiency solar technology and a 10 Amp battery charge controller.

- Super efficient polycrystalline solar technology
- Simple fold out and connect assembly takes under 3 minutes!
- Easy to carry and store

FSPINS-BS / FSPINS-GS / FSPINS-PS Pre-wired Solar Port Charging Inlet

Modern and sleek design. Made from heavy duty marine-grade materials with a fiber filled UV stabilized polyester outer casing designed to withstand harsh outdoor environments.

SOLAR PANEL

SOLAR CELL TYPE	High Eff Polycrystalline
MAX POWER (P _{MAX})	90W (+/-5%) (95W)
RATED VOLTAGE (V _{MP})	17.6V
RATED CURRENT (I _{MP})	5.11A
OPEN CIRCUIT VOLTAGE (V _{OC})	21.50V
SHORT CIRCUIT CURRENT (I _{SC})	5.31V
MAXIMUM SYSTEM VOLTAGE	1000V
TEST CONDITION	AM1.5,1000W/m ² ,25

CHARGE CONTROLLER

SOLAR CHARGER TYPE	PWM
MAX INPUT VOLTAGE	22V
MAX CURRENT (Amp)	7Amp
HIGH VOLTAGE PROTECTION	14.5V (+/-0.5V)
LOW VOLTAGE PROTECTION	11V (+/-0.3V)

SMART TECHNOLOGY

Faultsmart™ Reverse Polarity and Neutral Loss Indicator

Furrion's Faultsmart Neutral loss and Reverse Polarity Indicator includes a bright blue LED power indicator and a bright red LED reverse polarity indicator. This reverse polarity LED indicates incorrect flow of electricity due to incorrect wiring. When this occurs the current will continue to flow until the circuit burns open. This provides the user with an instant warning and reduces the risk of damage to electrical equipment or the likely consequence of an onboard fire.

Patents Pending

Furrion's Powersmart bright blue LED voltage Indicator provides the user with instant indication that power is present. In blackout situations this super bright LED helps to determine whether the fault has occurred at the power source or on your equipment.

Bright
Blue LED Power
Voltage
Indicator

Pullsmart™ Neutral Loss Safety Disconnect

Furrion's RV Pullsmart Safe Disconnect Feature is a revolutionary design which helps prevent neutral loss occurring by user error. The plug handle has been designed to provide the user with a quick, easy and safe disconnect from the power source. Neutral loss commonly occurs when the user disconnects the plug from the wrong direction thus pulling out the neutral pin before the live pins, which creates a surge of electricity through the connection burning out appliances. Pullsmart's design helps to create a pull angle that can avoid these occurrences.

Reverse Polarity and Neutral Loss Indicator

Description:

Furrion's 30 Amp cordset range come with Faultsmart reverse polarity and neutral loss indicator with a Pullsmart safe disconnect feature. Cordsets are made to the highest quality standards for long life use backed by Furrion's 5 year warranty.

Features:

- Furrion's Faultsmart reverse polarity and neutral loss indicator
- Furrion's Pullsmart feature
- Plug end has side grips for easy, user friendly connection
- Available in black or Furrion's titanium color
- Universal fit with all other brands

New, safe and innovative design reduces human error during installation and on OEM production lines. The unique and industry-first terminal design reduces operating temperature by up to 10°F.

Description:

Furrion's power inlets are modern and sleek with a futuristic look and feel. Manufactured to withstand harsh marine environments and constructed with high quality marine-grade materials. These stylish inlets feature a voltage indicating LED to show a live connection *Stainless steel inlet does not include LED

Features:

- Furrion's Powersmart 3-LED bright blue power indicator
- Furrion's sleek, modern design
- Available in polished stainless steel and non-metallic materials
- Universal fit for industry standards

Specifications:

Plastic inlet:

Logo plate: 316 marine grade Stainless Steel

Outer casing: Fibre filled UV stabilized polyester

Stainless steel inlet:

Outer casing: Hand polished 316L marine grade stainless steel

Rear and internal parts: Plug Inserts: PC (CTI greater than 600V)

Rear enclosure: PA - UL flammability rating 94V-0

Terminals and pins: Nickel plated brass pins for corrosion resistance

Tested to marine UL498 and CSA C22.2 standards

SMART SAFE POWER

- Vibration Resistant Brass Terminals
 - Designed to withstand vibration from RV
 - Reduces the risk of loose terminals arcing
- High Copper Content Brass Terminals
 - Brass terminals reduce operating temperature range compared to other terminal materials used.
 - Improved thermal and electrical conductivity
 - Reduced risk of thermal event
- Direct connection to the safety interlock contactors
 - Less resistance in the circuit reducing heat
 - Improved thermal and electrical conductivity
 - Reduces risk of thermal event
- Mechanical safety interlock prevents generator and shorepower source from contacting at the same time and provides stronger terminal contact
- UL94 fire resistant plastic casing
- Better quality and thicker silver contacts for longer durability in service
- Multiple cable strain punch out holes for easier and more installation options

Anti-interference TV cable

Description:

Telephone and TV cables in RV parks and marinas, when run over long lengths, act as antennas picking up unwanted radio signals which cause interference. Furrion's Signalsmart anti-interference filter reduces this interference and improves your connection quality.

Features:

- Added inline interference filter improving reception
- Weatherproof RG59-U connectors for outdoor use
- Bonus Weatherproof bag for storage and protection
- Comes in standard yellow color and Furrion's titanium
- Universal fit with all other brands

Specifications:

Cable type: Coaxial cable

Boat grade vinyl insulated for weatherproofing

Connectors: Slip on 'F' type male connections with protective cover

Signalsmart™
Anti-interference filter

PORTABLE CABLE RAMP / ORGANIZING BAG

FURRIION

FRAMP-SS

Description:

Furrion's portable cable ramp has amazing industrial strength, is lightweight and packs into a small bag for easy storage and portability. With its adjustable sizes and the ability to join several ramps together, the ramp provides protection for a wide variety of applications. The Portable-ramp has also been designed for mounting permanently when needed and light reflecting signs on the surface for night visibility. The Portable-ramp has all the necessary features to protect yourself against unwanted damage to your equipment and prevent any painful and expensive personal liabilities.

Features:

- Adjustable widths for different sizes
- Quick connect system for joining multiple ramps together
- Portable use or permanently mounted
- Light weight & amazing industrial strength: Tested up to 2 tonnes
- Packs up and comes with compact storage bag
- Reflecting surface symbols for night visibility
- Shows an internationally recognized warning symbol
- Rubber feet for added traction and ramp stability

Specifications:

Length of Ramp: 1ft 10"
 Weight: 4.8 kg / 10.56 pounds
 Tested single load: up to 2 tonne
 Tested vehicle weight: up to 4 tonne
 Material: Fibre filled nylon
 Unlimited length with joining ramps
 Cable channel width: adjustable from 2 inch to 3 3/4 inch

Non-rip storage bag included

Have you:

- ♦ Protected your expensive cables against unwanted damage?
- ♦ Attempted to prevent accidents from tripping over your equipment?
- ♦ Protected yourself against painful liabilities from the negligence of laying cables across pathways or open spaces without any attempt to warn of the obstruction?

Bonus storage bag!

Fits up to 2 x 200 Amp cables

- 1 Permanent mounting feature
- 2 Adjustable widths. Fits up to 2 x 200 Amp cables
- 3 Fold away interlocking swing arm for joining multiple ramps
- 4 Reflective warning symbols for night visibility
- 5 Rubber feet for added traction

Organizing Bag

FORGBG-SS

Description:

With Furrion's shore power organizing bag you can now lock your cables to a desired location without having to worry about them being moved or stolen. The bag works using patented security products *(sold separately). You never again have to worry about leaving your expensive equipment unsecured at the dock, site or yard. Your equipment can then be stored in the bag for weather resistant protection.

Features:

1. Cable entry and exit access holes in each end of the bag
2. Ventilation for drying moisture
3. Heavy duty material to help prevent damage and give added security and strength
4. Water resistant material helps to prevent corrosion of your equipment
5. Reflective edge making it visible in dark locations

Specifications:

Materials: Heavy duty tarpaulin
