The finest hose clip
in the world

PROFILE

Jubilee® Clips were manufactured as the first worm drive hose clamp in 1921, the company held the first patent for worm drive hose clips and has been manufacturing hose clips in Great Britain ever since. The name Jubilee® Clip remains a registered trademark throughout the world.

The company now offers a wide range of clamping solutions including small clamps such as two ear 'O' clips and Jubilee® Juniors (nut and bolt clamps), high strength clips such as High Torque and Superclamps, and cut to length banding and strapping systems known as Multiband.

QUALITY

The success of the company is based on the principal foundation of quality. Through both the quality of our products and the quality of our service, we aim to be a company that you can rely on.

Jubilee® Clips are manufactured to the very highest standards, using only premium grade materials. All our product ranges are systematically checked to their various Standards during manufacture and packing.

Jubilee clips are Kitemarked™ to BS 5315:1991, the company is registered to BS EN ISO 9001:2008 Quality Management System and ISO 14001 Environmental Management System. The Original and High Torque stainless steel ranges are also Lloyd's Type Approved, essential when used for marine applications.

All Jubilee® products conform to the latest EU Directives, furthermore we aim to work in a socially, ethically and environmentally responsible way ensuring that our manufacturing processes conform to environmental legislation. We continue to decrease the effect that our manufacturing output has on the environment and improve our packaging waste year on year, recycling as much as possible.

CORROSION RESISTANCE NSS TEST

Jubilee Clips conduct Neutral Salt Spray tests (NSS) according to BS EN ISO 9227 2006. The NSS test is conducted in a sealed chamber at 35°C, where a 5% NaCl solution with a PH value of between 6.5 and 7.2 is sprayed continuously onto the clips. The duration of time shown in this product brochure shows the minimum number of hours the clips are able to withstand the salt spray test without significant signs of corrosion (red rust formation).

It is difficult to transfer this information to a length of time the clips would survive in an application under normal environmental conditions, as these will vary from one location to the next. 240 hours is regarded by the British construction industry as the equivalent of a lifetime of 60 years in an urban outside environment in the UK.

ORIGINAL RANGE

The original Jubilee® Clip, the product that started it all! For the vast majority of applications this sturdy worm drive hose clip is ideally suited. Available as a mild steel zinc protected or stainless steel clamp in both 304 (18/8) and 316 (18/10) grades of stainless steel; this product also has a band that is continuously threaded enabling extra flexibility when adjusting the clip to the correct size. The smooth inside profile of the band and rolled edges give protection for all types of hoses including soft hoses made from rubber or silicone.

All our original Jubilee® Clips are independently tested by the British Standards Institute (BSI) and carry the British Standard Kitemark™, which is universally regarded as the most stringent Standard there is for a hose clip. Both grades of stainless steel clips are also accredited by Lloyd's Register for marine use.

For our ranges of worm drive hose clips, Jubilee® never use mixed materials, as this ensures highest levels of corrosion resistance, whereas when using mixed materials, such as in W2 hose clips, one material will be sacrificed in favour of another and will corrode much quicker than when only one material is used.

ORIGINAL RANGE

Mild Steel Zinc Protected:-

Original Range Jubilee® Clips in zinc protected mild steel are the most popular clips in our range. Ideally suited for most day to day requirements for joining hose in areas such as the automotive industry and the automotive aftermarket, agricultural applications, such as irrigation and farm machinery, pneumatic and hydraulic applications in the industrial sector, hardware/DIY applications and in construction.

Mild Steel Zinc Protected

The finest hose clip in the world

ORIGINAL RANGE 304 Stainless Steel:-

The most versatile of clips in the Jubilee® range, our Original Range Jubilee® hose clips in 304 (18/8) stainless steel are widely used across all industries where hose clips are used to secure hoses, as well as for other applications. Their corrosion resistance enables their use in the marine, oil and gas and food sectors, as well as the agricultural, hardware and industrial sectors, where higher corrosion resistance is required.

304 Stainless Steel

ORIGINAL RANGE

316 Stainless Steel (HNSS):-

The Original Range Jubilee® hose clips with the highest corrosion resistance, our 316 (18/10) stainless steel Jubilee® clips, are the hose clip of preference in shipbuilding and maintenance when the highest level of corrosion resistance is demanded. Other areas where our Original Range 316 stainless steel clips are used are the food and chemicals industries, where highly corrosive acids can be present, and this material grade is also favoured by the oil and gas industry.

316 Stainless Steel

The finest hose clip
in the world

HIGH TORQUE

Jubilee High Torque Clips are suitable for heavy duty applications with plastic or reinforced hoses. The high clamping forces make this clip suitable for heavy duty applications where stubborn leakage or vibration issues make lesser clips and clamps unsuitable.

Jubilee High Torque clips are made of 304 stainless steel, with a two part housing and cut through band, keeping the band straight at the point of engagement and fully engaging all of the screw thread; giving a superior tightening torque. Although not suitable for use on soft hoses, where the high forces and perforated band may cut into the hose, they are ideal where a high clamping force is required and with a flexible band material they can achieve a high level of friction even against a smooth surface such as a metal pole.

With a wide clamping range compared to alternative heavy duty clamps, stock requirements are reduced. The flexible band also offers better sealing at lower torques than nut and bolt style heavy duty clamps, which, combined with weight saving benefits, make Jubilee High Torque Clips a versatile and superior heavy duty clamp.

- Conform to SAE J1508 type HD
- 8mm A/F slotted screw
- All 304 stainless steel
- Twice the tightening torque of standard worm drive hose clips which creates more than twice the band tension for stubborn leakage and high vibration applications.
- Breaking torque is 17 Nm comparable to conventional 'T' bolt clips of equal size.
- Recommended tightening torque 11.9 Nm (106 lbs in).
- Appropriate in those heavy duty situations where the general British Standard product is not suitable.

304 Stainless Steel

The finest hose clip
in the world

Jubilee® Multiband is a self-assembly, endless banding or screw band system, which allows the user to cut the band to the desired length.

Used in areas such as heating, ventilation and air conditioning (HVAC), sign fixing, conduit and cable retention and lagging, this product is highly versatile.

The Jubilee® Multiband system comprises a worm drive steel strip that is cut to the length required, and screw housings which slide onto the band. The band can then be tightened onto pipes or ducts of almost any diameter. A number of screw and housing designs and two band widths are available to suit any application.

- Choose Multiband to make a clip to any size.
- Quick, versatile and convenient.
- Simply cut to length, add a housing, insert a screw and tighten to size.
- New to the market – Jubilee Multiband in 316 stainless steel for highly corrosive environments. Ask us for more information.

Component Parts for MB11MS:-

Banding in dispensers of 10m

Part No. **MB1701**

- 11mm wide
- 10 metre roll
- Zinc plated mild steel

Banding in dispensers of 30m

Part No. **MB1702**

- 11mm wide
- 30 metre roll
- Zinc plated mild steel

Housings/screws for use with 11mm Multiband

Part No. **MB1704**

- Solid housing
- 7mm A/F hexagonal screw
- Box of 25 sets
- Zinc plated mild steel

Captive housings/screws for use with 11mm Multiband

Part No. **MB1706**

- 7mm A/F hexagonal screw
- Box of 25 sets
- Zinc plated mild steel

Housings/Allen screws for use with 11mm Multiband

Part No. **MB1705**

- Solid housing
- 3/16" recess hexagonal key slot
- Box of 25 sets
- Zinc plated mild steel

Handy Pack

Part No. **MB1708**

- 11mm wide
- 10 metre roll
- 25 solid housings/screws
- Zinc plated mild steel

Pocket Pack

Part No. **MB1707**

- 11mm wide
- 3 metre roll
- 8 solid housings/screws
- Zinc plated mild steel

Corrosion Resistance: 240 hours NSS Test

Fastening: 7mm A/F screw

in the world**

QUICK RELEASE STRAPS

Jubilee Quick Release Straps are used in a wide range of applications where a closed installation requires the clamp to be opened fully for positioning. Examples include sign fixing, cable retention, repairs and heating, ventilation and air conditioning. Jubilee Quick Release Straps are available in mild and stainless steel and manufactured at our Birmingham (UK) plant.

Jubilee Quick Release Straps are manufactured with a quick release swivel housing design which locks into position once the clip is fastened. The strong housing design ensures a higher maximum tightening torque than other quick release designs and the screw fitting requires no specialist tools to install, making installation quicker and more cost effective than some more complex solutions. The design also benefits from being reusable. Jubilee Quick Release Straps may also be used in cable retaining applications where nylon cable ties are not suitable due to fire regulations.

Jubilee Quick Release Straps have a very wide clamping range and excess band material can be removed at the point of installation. These clamps are flexible enough to conform to unusually shaped fittings and they are also suitable for very large diameter applications. Jubilee Quick Release Straps are available in 11mm band width in zinc protected mild steel and all parts 304 stainless steel. There is also a slimline 7mm band width version with flip/lock design which is available in all parts 304 stainless steel only and is suitable where space or weight are at a premium.

- 7mm hex head or slotted design
- Zinc protected mild steel or all 304 stainless steel
- 11mm or 7mm band width
- Made in UK

304 Stainless Steel

SUPERCLAMPS

Jubilee® Superclamps are manufactured in mild steel zinc plated, all 304 stainless steel and all 316 stainless steel and the latter are predominantly suited for applications where high corrosion resistance is required. These powerful clamps are ideal for marine and offshore oil and gas applications, as well as the food and chemicals industries.

These clamps can also be used in place of SAE J1508 type TB or T-Bolt style clamps.

Available from size 17mm, with size 64mm and above offering the highest tightening torques with 8.8 high tensile bolts allowing an impressive maximum recommended torque of 25 Nm. Naturally with the smaller clamps using a smaller bolt the torques are lower, but even so, the torques are impressive by comparison to alternatives for the same size range.

Superclamps are particularly suited for delivery and suction hoses requiring a very tight seal and agricultural applications, waste water extraction, mining, quarrying or on other sectors where a heavy-duty clamp is required.

- Single nut adjustment
- Smooth band protects hose
- Bridge piece ensures 360° seal
- Solid trunnion maximises torque
- Assembly by manual or automatic tools
- Chromium VI free finish on all materials

316 Stainless Steel

The finest hose clip
in the world

LIGHT RANGE

With a narrower band than the Original Jubilee® Clip, this lightweight clip is designed to offer an excellent seal at slightly lower torques. The Jubilee® Light Range is manufactured to DIN 3017 and, like the Original Jubilee® Clip, all clips are continuously threaded to enable extra flexibility when adjusting the clips to the required size. This clip is most suited to applications where space, or weight, is restricted and often used in car and light commercial vehicle applications.

The Jubilee® Light Range clip meets the high standard of quality and performance required of all Jubilee® products. The benefits of weight saving and extra corrosion resistance allow this addition to the full range of Jubilee clips to offer the customer a greater flexibility in meeting their own requirements.

Our Jubilee® Light Range in zinc protected mild steel was originally designed specifically for use in the automotive industry and the automotive aftermarket to comply with DIN 3017, but are also suited for other applications where space, or weight, is restricted in e.g. agricultural applications, the industrial sector and hardware/DIY applications.

Jubilee® Light Range hose clips in 304 (18/8) stainless steel are used in the marine, oil and gas and food sectors, as well as the agricultural, hardware and industrial sectors, where higher corrosion resistance is required, but space and/or weight are at a premium.

WINGSPADE

Based on Jubilee® Light Range Clips and suitable for hand fitting; Jubilee Wingspade® clips are supplied with a thumb screw, allowing easy torquing using just a thumb and forefinger. Suitable for applications where there is a requirement for frequent tightening/loosening on low torque applications; mainly for the hardware market.

This product range is manufactured to DIN Standard and has a plastic spade for ease of use. Wingspades are suited to fittings that may need to be removed from time to time such as dust extraction units, garden hoses and other domestic applications. The range starts from 9.5mm and extends through to 70mm. Wingspades are available in zinc protected mild steel only.

Mild Steel Zinc Protected

The finest hose clip
in the world

Jubilee® P CLIPS

Jubilee® P Clips are suitable for retaining pipes, cables and hoses.

Jubilee® P Clips are manufactured from a flexible steel or stainless steel one piece band with an ethylene-propylene-diene monomer (EPDM) rubber liner. The band features a stepped design to allow the clip to sit flush with the rubber liner in place. The single piece construction means that there are no joins which makes the clip very strong. The upper hole has an elongated design allowing easy fitting of the clip. The rubber liner is manufactured in a corresponding profile to be secure in its position on the clip and ensures a tight fit as well as vibration damping and sound insulation. EPDM rubber offers several advantages over alternatives such as, a wide operating temperature range, resistance to UV (ultra violet) weathering and resistance to creep.

Jubilee® P Clips are available in all of the most important standard sizes. Special production of other sizes or using different lining materials may be available on request for large order volumes.

- Operating temperature range -50°C to 150°C
- Good UV weathering resistance
- Offers good resistance to creep
- Delivers good abrasion resistance
- Advanced resistance to ozone
- Highly developed resistance to ageing
- Halogen Free
- Reinforced step not required

304 Stainless Steel

The finest hose clip in the world

Jubilee® 'O' CLIPS

Jubilee 'O' Clip 2-Ear clamps are widely used for maintenance and OEM applications. Mainly used on air, fluid, gas and steam lines and also suitable for low pressure hydraulic applications.

The absence of a screw mechanism allows Jubilee® 'O' Clips to be useful on extremely small hoses. The tamper proof nature of the fitting may also make the Jubilee® 'O' Clips suitable for certain applications where there may be a risk associated with any interference to the fitting. Sometimes affectionately referred to as "Lemon Clips" due to their shape and also referred to as double ear clips and 2-ear clips.

Pincers (both normal closing and side closing) are used to crimp the ears of the clamps and affect a proper seal.

2-ear clamps are best installed by closing one ear fully first, the second ear is then closed so that the first ear opens slightly (gap to be approximately 1.5mm). This builds a resilient strength into the clamp in a spring-like action to hold against pressure, vibration and hose shrinkage due to temperature changes or ageing.

Position clip on hose, crimp one ear fully first before firmly squeezing the other ear.

To remove a clip place the pincer jaws across the ear and cut through it.

JUBILEE® CV BOOT CLIP

The Constant Velocity Boot Clip from Jubilee secures the rubber bellows to the CV joint and helps protect it from dirt and water as well as preventing lubricants from leaking.

Supplied as a flat strap, Jubilee CV Boot Clips can be easily installed by interlocking the clip hooks on the outside of the band and crimping the ear to secure. The clip must be shaped prior to assembly.

Both clip sizes have a choice of engagement positions to easily adjust to different diameters.

Essential for MOT legislation.

**The finest hose clip
in the world**

This carefully selected range of tools is perfectly suited to our range of products and ensures that Jubilee® Clips are not only well manufactured, but also easy to apply.

Jubilee Clipdriver®

The rigid shaft Jubilee Clipdriver® for easy adjustment of Jubilee clips. Available in two lengths - 95mm and 160mm with a 7mm socket.

Part No: CDR95 = 95mm length
CDR160 = 160mm length
Material: Mild Steel

Jubilee Flexidriver®

The flexible shaft of the Jubilee Flexidriver® allows the adjustment of our clips even in difficult to reach positions. The socket is suitable to fit any 7mm across flat hexagonal headed screw.

Part No: FLX

Material: Mild Steel

Side Closing Pincer

Side closing pincer for crimping the ears of Jubilee® 'O' Clips and Jubilee® constant velocity (CV) boot clips where access to the ear is difficult.

Part No: P1099

Material: Mild Steel

JUBILEE® POINT OF SALE

Jubilee® Clip point of sales dispensers provide counter top and wall mounted displays for trade counters, as well as holding a small stock of Jubilee® products in one convenient place.

Jubilee® Clip Dispenser

The Jubilee® Clip Dispenser comes with 100 Jubilee® Clips, ten each of the most popular ten sizes of clip covering an adjustment range from 9.5mm up to 50mm and also includes three Jubilee Flexidriver® tools.

Contents: 10 of each Jubilee® Clip sizes 000, M00, 00, 0, 0X, 1A, 1, 1X, 1M & 2A **plus** 3 Jubilee Flexidriver®

Part No: CD100MS

Material: Mild Steel Zinc Protected

Part No: CD100SS

Material: 304 Stainless Steel

Part No: CD100SS316

Material: 316 Stainless Steel

Jubilee® Large Clip Dispenser

The Jubilee® Large Clip Dispenser contains 140 assorted Jubilee clips together with three Jubilee Flexidriver® tools all displayed on wire hooks which are easy to re-stock. This provides an aesthetically pleasing point of sale display and a small stock holding in one single unit.

Contents: 10 of each Jubilee® Clip sizes 000, M00, 00, 0, 0X, 1A, 1, 1X, 1M, 2A, 2, 2X, 3 & 3X **plus** 3 Jubilee Flexidriver®

Part No: CD140MS

Material: Mild Steel Zinc Protected

Part No: CD140SS

Material: 304 Stainless Steel

Part No: CD140SS316

Material: 316 Stainless Steel

Jubilee® Mega Dispenser

The Mega Dispenser is adaptable and user friendly, it is a great sales aid for any trade counter and keeps stock visible and tidy. It dispenses Jubilee clips in boxes of ten (92 boxes in total) and also carries five of the essential Flexidriver tools for easy adjustment of Jubilee clips.

Contents: 100 of 000, M00, 00 ; 80 of 0, 0X ; 70 of 1A ; 60 of 1, 1X, 1M, 2A ; 50 of 2, 2X, 3 **plus** 5 Jubilee Flexidriver®

Part No: MD920MS

Material: Mild Steel Zinc Protected

Part No: MD920SS

Material: 304 Stainless Steel

Part No: MD920SS316

Material: 316 Stainless Steel

Jubilee® Handy Pack

The Jubilee® Handy Pack includes 100 clips with ten each of the ten most popular sizes, facilitating connections from 9.5mm up to 50mm. The robust and smart cardboard outer is suitable for an end user or as a point of sale.

Contents: 10 of each Jubilee® Clip sizes 000, M00, 00, 0, 0X, 1A, 1, 1X, 1M & 2A

Part No: HP100MS

Material: Mild Steel Zinc Protected

Part No: HP100SS

Material: 304 Stainless Steel

Part No: HP100SS316

Material: 316 Stainless Steel

JUBILEE® PACKS

Jubilee® offers a range of assorted packs covering the most popular sizes making it possible to keep a selection of sizes, appropriate to any situation, to hand in one convenient pack

Jubilee® Workshop Pack

The Jubilee® Workshop Pack contains 143 of the most popular Jubilee® Clips to suit applications from 9.5mm to 40mm in a sturdy plastic container suitable for any tough industrial environment.

Contents: 24 of 000 | 32 of M00 | 28 of 00 | 13 of 0, 1 | 14 of 0X | 12 of 1A | 7 of 1X

Part No: HCP143MS

Material: Mild Steel Zinc Protected

Part No: HCP143SS

Material: 304 Stainless Steel

Part No: HCP143SS316

Material: 316 Stainless Steel

Jubilee® Junior Assortment

Assortment of 165 Jubilee® Junior clips suitable for connecting hoses in low pressure applications from 7mm to 14mm.

Contents: 25 of NB0709, NB0810, NB0911 | 30 of NB1012, NB1113, NB1214

Part No: JA165MS

Material: Mild Steel Zinc Plated

Part No: JA165SS

Material: 304 Stainless Steel

Jubilee® 'O' Clips Kit

Jubilee® 'O' clip kits come with 175 assorted 'O' clips and are available with or without a pincer tool for securing the clips.

Contents: 20 of OC0507, OC0911, OC1113, OC1417, OC1518, OC1720 | 25 of OC0709 | 30 of OC1315

Part No: OKP175MS with Pincer
OK175MS without Pincer

Material: Mild Steel Zinc Plated

Part No: OKP175SS with Pincer
OK175SS without Pincer

Material: 304 Stainless Steel

Jubilee® P Clip Kit

This kit contains 110 pieces of Jubilee P clips in the most popular and versatile sizes. P clips are manufactured from one piece of steel band with an EPDM rubber liner.

Contents: 14 of JPC005, JPC006 | 12 of JPC008, JPC029 | 10 of JPC010 | 8 of JPC013, JPC016, JPC019, JPC021, JPC025, JPC035

Part No: JPC110MS

Material: Mild Steel Zinc Plated

Part No: JPC110SS

Material: 304 Stainless Steel

Jubilee® Pocket Pack

This convenient small pack contains 32 Jubilee® Clips with recommended adjustment ranges from 9.5mm to 40mm.

Contents: 6 of 000, M00, 00 | 4 of 0, 0X | 2 of 1A, 1, 1X

Part No: PPMS

Material: Mild Steel Zinc Protected

Part No: PPSS

Material: 304 Stainless Steel

Part No: PPSS316

Material: 316 Stainless Steel

Jubilee® Junior Pocket Pack

This useful compact pack contains 54 Jubilee Junior clips to suit low pressure fittings from 7mm to 16mm.

Contents: 6 of NB0709, NB0810, NB0911, NB1315 | 8 of NB1012, NB1214 | 10 of NB1113 | 4 of NB1416

Part No: PPJJMS

Material: Mild Steel Zinc Plated

Part No: PPJJSS

Material: 304 Stainless Steel

Jubilee® Wingspade Pocket Pack

The apposite Jubilee Wingspade® pocket pack contains 22 clips each with a wing screw for easy fitting without the need for any tools, covering fittings from 9.5mm to 55mm.

Contents: 4 of WS012, WS016, WS020, WS027 | 2 of each WS032, WS045, WS055

Part No: PPWS

Material: Mild Steel Zinc Protected with plastic spade
